WORK EXPERIENCE

Ontario Center of Innovation

Toronto, Canada

Technical Product Manager

Dec 2022 - Present

- Redesigned grant application workflow using automation and user research insights, cutting turnaround time by 40% and increasing processing capacity by 3x year-over-year
- Led end-to-end delivery of an AI-powered chatbot, increasing user engagement by 25% and driving a 15% uplift in grant and event submission completions
- Translated business requirements into technical user stories and solution designs across UI applications, backend services, and APIs, improving sprint velocity by 30% and compressing release cycles by 25%
- Led integration of enterprise systems (SugarCRM, SugarConnect) via APIs and backend services, enabling seamless data flow across applications and eliminating manual handoffs for 8 teams
- Owned and maintained a rolling product roadmap across 3 concurrent workstreams, facilitating quarterly prioritization sessions with engineering, design, and executive stakeholders to align delivery with strategic goals
- Conducted continuous user research and funnel analysis using Mixpanel and Hotjar to inform product prioritization, directly reducing low-value feature work by 20%

Amazon Web Services

Toronto, Canada

Software Development Engineer

Sep 2021 - Dec 2022

- Partnered with PMs, UX, and ML teams to define and ship 12 major releases/year, reducing feature cycle time by 30% on a platform processing 10M+ daily auth requests
- Owned delivery of secure identity microservices on an API-first platform, enabling high-volume account creation and reliable system integrations at AWS scale
- Drove release management, security compliance gates, and quality assurance across cross-functional squads, balancing velocity with regulatory requirements
- Defined success metrics and monitored KPIs across 5+ concurrent identity workstreams, enabling data-driven prioritization and executive-level roadmap visibility
- Ran structured discovery interviews with enterprise customers and internal stakeholders to surface unmet identity needs, directly shaping roadmap priorities across 2 consecutive fiscal quarters

NCR Corporation

Hyderabad, India

Software Developer

Apr 2018 - Aug 2019

- Scaled transaction infrastructure to support 1.5M+ annual operations through cloud architecture upgrades, sustaining reliability during peak-traffic loads
- Developed PCI-compliant API communication layers between ATM fleets and backend systems, fortifying transactional data integrity and meeting compliance requirements
- Revamped developer onboarding with interactive documentation and self-serve training materials, reducing team ramp time by 25% across cross-functional deployments

CERTIFICATIONS & PUBLICATIONS

- Project Management Professional (PMP) - PMI July 2024
- Product Manager Certification - BrainStation Oct 2022
- Acoustic Event Detection using Graph Signals - IEEE TENCON Dec 2017

EDUCATION

University of Regina

Regina, Canada

Master of Science in Computer Science

May 2021

GITAM University

Visakhapatnam, India

Bachelor of Science in Computer Science

May 2018

TECHNICAL SKILLS

- **Product:** Jira, Asana, Confluence, Figma, Miro, Mixpanel, Hotjar, Productboard, Agile, Scrum
- **Data:** SQL, Tableau, Power BI, A/B Testing, Funnel Analysis
- **Technical:** REST APIs, Microservices, OAuth2/OIDC, Java, Python, AWS, Azure(App Services, Functions, Storage), CI/CD, Kubernetes(AKS), Postman
