## WORK EXPERIENCE

**Scotiabank** **Toronto, Canada**
*AI Product Manager* *Aug 2026 to Present*

- Defined AI evaluation metrics for accuracy, hallucinations, edge cases, and model drift, improving response quality by 68% and strengthening production readiness.
- Authored product requirements for LLM prompts, RAG workflows, safety guardrails, and data governance, translating business needs into technical requirements.
- Led prompt and RAG experiments, comparing response quality and task completion across iterations to improve task success by 46% and reduce hallucinations by 76%.
- Delivered AI and bot automations that reduced manual work and contributed to operational expense reductions exceeding $20M.

**Ontario Centre of Innovation** **Toronto, Canada**
*Technical Product Manager* *Dec 2022 to Mar 2026*

- Redesigned grant application workflows using automation and user research, reducing turnaround time by 40% and tripling annual processing capacity.
- Led delivery of an AI chatbot, increasing user engagement by 25% and grant and event submission completions by 15%.
- Led API and backend integrations for SugarCRM and SugarConnect, enabling data flow across applications and eliminating manual handoffs for eight teams.
- Owned a rolling roadmap across three workstreams, bringing engineering, design, and executive stakeholders together for quarterly decisions on priorities and delivery sequencing.
- Used continuous user research and funnel analysis in Mixpanel and Hotjar to identify friction and inform prioritization, reducing low value feature work by 20%.

**Amazon Web Services** **Toronto, Canada**
*Software Development Engineer* *Sep 2021 to Dec 2022*

- Partnered with product, UX, and ML teams to ship 12 major releases per year on a platform processing over 10 million daily authentication requests, reducing feature cycle time by 30%.
- Delivered secure identity microservices and APIs supporting account creation and reliable integrations at AWS scale.
- Coordinated release management, security compliance gates, and quality assurance across delivery teams, balancing delivery speed with platform reliability and security requirements.
- Defined success metrics and monitored KPIs across more than five identity workstreams, helping product and engineering teams prioritize delivery and maintain executive roadmap visibility.

**NCR Corporation** **Hyderabad, India**
*Software Developer* *Apr 2018 to Aug 2019*

## CERTIFICATIONS AND PUBLICATION

Professional Scrum Product Owner I (PSPO I) | Scrum.org *Sep 2026*
Project Management Professional (PMP) | PMI *July 2024*
Product Manager Certification | BrainStation *Oct 2022*
Acoustic Event Detection using Graph Signals | IEEE TENCON *Dec 2017*

## EDUCATION

**University of Regina** **Regina, Canada**
*Master of Science in Computer Science* *May 2021*
**GITAM University** **Visakhapatnam, India**
*Bachelor of Science in Computer Science* *May 2018*

## TECHNICAL SKILLS

**Product:** User research, Product requirements, Roadmaps, Prioritization, Stakeholder alignment, Agile, Scrum, Jira, Asana, Confluence, Figma, Miro, Productboard
**AI:** LLMs, RAG, Prompt experimentation, Model evaluation, Hallucination analysis, Edge case analysis, Model drift, Safety guardrails, Data governance
**Data:** SQL, Mixpanel, Hotjar, Tableau, Power BI, A/B testing, Funnel analysis, FHIR fundamentals
**Engineering:** Java, Python, REST APIs, Microservices, OAuth2/OIDC, AWS, Azure, CI/CD, Kubernetes, Postman
